PROFILE

B.Sc. Computer Science student with a strong programming and OS foundation, targeting an entry-level cybersecurity role (**SOC**, **Security Analyst** or **Pentester**). I combine academic study with practical hands-on training in threat detection and mitigation, network analysis through the **Google Cybersecurity** Certificate and Coursera **cyber tools**.

Technical skills

- **Threat Detection & Incident Response:** Threat-actor analysis, information triage, and prioritisation for mitigating vectors (**Metasploit**, **AD attacks**, **DDoS**, **XSS**, Phishing).
- **SIEM & Security Tools:** Hands-on network analysis and monitoring utilizing **Splunk**, **Suricata**, **Wireshark**, and **Nmap**.
- **Network Security:** Source evaluation**,** packet inspection**,** OSI Model architecture, and traffic analysis across **common protocols** (DNS, SSH, ARP, RDP).
- **Operating Systems & Programming:** Linux (**Ubuntu** administration), **Python** (security automation scripting), **C/C++**, **SQL**.
- **Projects:** Developed a complete two-pass **Assembler** in **C** on **Ubuntu**, showing knowledge in OS architecture, memory management, and low-level code execution.

Education

• **B.Sc. in Computer Science** | *HIT Holon Institute of Technology* | Expected 2027
• Completed **Google Cybersecurity Professional** Certificate to gain hands-on experience in common tools and practical threat mitigation to complement my academic foundation.
• Currently pursuing **CompTIA Security+** certificate .

• **High School Graduate** | Independent Study
Completed full high school matriculation exams **(90+ average)** independently within a highly compressed **six-month** period as well as **Psychometric exam**.

Experience

Security guard | *JSS, Malmö* | Aug 2025 – present
• Proactively relocated internationally independently, demonstrating **adaptability**, **independence**, and a strong willingness to step completely out of my comfort zone.

Security guard | *Bank Hapoalim, Tel Aviv* | Mar 2023 – Jul 2025
• Directed core security protocols, requiring **alertness** and **real-time decision making** .
• Previous role included **monitoring system** security, managing security events, and **prioritizing risk** assessments.

Military Service | Paratroopers Brigade (890) | 2023 | Reserve at 466

- Completed full combat service with Rifleman 07 certification in **Paratroopers** Brigade (**890**), was released with honor.
- Promoted to **team leader** of a medic unit, overseeing daily operations and training.
- Gained experience in **high-pressure decision-making** and team coordination.
